

Telematics in Practice

Working together to improve road safety

MiX Telematics: a partner with purpose

"We move the world forward every day by delivering meaningful information to our customers that creates safer roads, a cleaner planet and improved efficiencies"

We are living in a new era of telematics

In our experience: improving safety transforms a business

- Safer driving = fuel savings
- Safer driving = enhanced service to customers
- Safer driving = less time off-road, better utilisation
- Safer driving = maintenance cost reduction
- Cameras = insurance risk reduction

- Real-time driver feedback
- Driver engagement
- · Tailored improvement programmes
- · Vehicle safety checks
- Driving hours of service
- Modular solutions e.g. cameras, Alcolock, Mobileye integration

- Safety check compliance & accountability
- Prevents driving hours violations
- Privacy mode & personal / business mileage monitoring
- Breathalyser-based immobilisation

MiX's safety change management approach

Core programme

Modular telematics
SaaS package

Live in-cab driver feedback

Driver engagement app

Business intelligence

Change management programme

Customised e-learning

Value added solutions for elite safety performance

Connected cameras: training & evidence

Vehicle safety check & ePOD app

Driver training

Journey Management

Collision detection & avoidance

Breathalyser-based Immobilisation

Success depends on best practice implementation

MiX Telematics Professional Services

Service for Life Promise: "We partner with you to develop, tailor, manage and measure our joint goals over the long-term"

Implementation in action

We work with you every step of the way

Typical client results

"Accident rate improved by 70%

Fuel efficiency increased by 10%

Wear and tear down by 15%

Vehicle numbers reduced by 12%"

MARTINBROWER

"These gains would not have been achieved without the support of MiX Telematics. The fact that our consultant has been on-hand during the whole process to offer guidance has been great. It's been a real benefit to be able to hear how others have worked with their drivers and then to work out together how best to use the system within our business."

What the future looks like

OEM Partnerships
